Selection Procedure:

Meeting the minimum entry requirements does not automatically guarantee acceptance. It depends on the number of applicants and number of places allowed by DUT. A ranking system is used for admission to the Department of Auditing and Tax. Applicants are selected in order of merit, based on the subject list above, on a first- come first-served basis and may include an interview.

Students who meet the minimum entrance requirements will be ranked according to rating criteria; The National Senior Certificate point would be used for each qualifying subject to determine a “combined score” for candidates. The “combined score” would thereafter be used as rating criteria for ranking of candidates. Candidates with highest score, in-line with the enrolment plan, would be given first preference.

Please Note:

Those applicants who meet the minimum requirements but whose overall points rating could put them at risk could still be placed on the extended curriculum programme as they would be considered under prepared and at risk of not coping with the demands of the regular programme. The **extended curriculum programme**, through a purposeful and structured set of learning experiences will provide these students with the academic foundations necessary for them to succeed on the regular programme.
