**NQF Level: 8**

**SAQA ID: 76925**

**Qualification Code: BCHNSG (4-YRS MAIN)**

**BCHNSE (5-YRS EXTENDED CURRICULUM)**

**Location: Indumiso Site, Midlands Campus (Pietermaritzburg)**

### Description of the Programme

The academic programme extends over a period of four years of full-time study, of which the first two years provides the future professional nurse with a comprehensive foundation in basic sciences; including basic medical sciences and social sciences. Attendance at lectures, clinical health settings, including community settings and laboratories will form the basic pattern. The final year will include a foundation in conducting research in nursing with specific focus in primary health care (PHC) settings. Hence, more than 50% of clinical learning placements will take place in community and primary care settings. The last semester of the programme will focus on consolidating PHC nursing and ensuring that the graduates are able to work in PHC settings immediately after graduation.

The planned teaching and learning experiences provide a broad foundation in basic sciences (medical and social sciences) as well as in-depth and comprehensive knowledge, skills and attitudes in clinical nursing to ensure that qualifying learners have the requisite knowledge and skills to function as professional nurses. More importantly, a community and case-based learning approach is chosen to facilitate the development of higher order thinking skills using authentic clinical setting case studies.

### Working Conditions

The programme is DUT's positive contribution to the nation's efforts to double or triple the production of professional nurses in South Africa and in so doing contribute to the country's health human resources strategy. Hence, it is required that participants in this programme sign a contract to practice in South Africa for four years after graduation, inclusive of one-year of community service.

### Personal Qualities Required

Nursing involves teamwork; therefore, one needs to be able to work and co-operate with colleagues. It is necessary to have a working knowledge and understanding of the basics of Nursing as a profession.

### Career Opportunities

The four-year Bachelor of Nursing degree qualifies you as a general nurse and midwife (community, psychiatry) and opens opportunities for working as a general nurse in any clinical setting. Further career prospects are to continue postgraduates' studies, specialising in clinical nursing, management, or academia.
